The CAMTech India Entrepreneur Boot Camp is designed for medtech innovators (working on maternal and child health technologies) who want to see their game-changing idea develop into a life-saving product. This 3-day program includes interactive workshops in product engineering and realization, clinical validation and testing, business strategy, IP and regulatory strategy, financing and investment, and commercialization strategies. The program is conducted by InnAccel, with its experienced medtech industry professionals, and will also include a wide range of industry, investment, clinical and technical experts. The Boot Camp is intended for medtech innovators (engineers, product designers, business experts, clinicians) who are committed to developing and commercializing technologies that have the potential to save the lives of women and children across India, and the world!
